Arris dg1670 default password

To get access to your Arris DG1670, you need the IP of your device, the username and password. You'll find such information in the Manual of your Arris DG1670 router. But if you do not have the manual for your router or you do not want to read the whole manual to find the default login information then you can use the quick guide below. To get to the router login page it's necessary that you are connected to the router. Arris DG1670 Login Guide Open your web browser (e.g. Chrome, Firefox, Opera or any other browser) Type 192.168.0.1 (the default IP to access the admin interface) in the address bar of your internet browser to access the router's web-based user interface. You should see 2 text fields where you can enter a username and a password. The default username for your Arris DG1670 is admin.The default password is password. Enter the username & password, hit "Enter" and now you should see the control panel of your router. If above login credentials doesn't work with your Arris DG1670 router then try this method Try different ID/password combinations that are widely used by Arris that you'll find below.
